- Hear about 'Vocare' who manage the Urgent Care Centre at the Royal Wolverhampton Trust. The urgent care model is designed to provide patients with same day urgent care, freeing up A&E departments to deal with more life threatening cases.

The centre is led by GPs, supported by a team of experienced nurse practitioners. While patients can use the centre as a walk-in service, a same day appointment system to reduce waiting time is available.

Healthwatch is your independent voice on your health and social care experiences, both good and bad, for example, your experience with a dentist or social worker.
